

BS10B/VM PORTABLE / BENCH / VEHICLE MOUNT

Electric Power Pack

- Ideal for maintenance and agricultural repairs.
- Lightweight at only 35kg.
- Autostop direct reading micrometer setting.
- 12v. 1ph and Air/Oil power pack options.
- For use on a wide range of hose and fittings.

The annular BS10B/VM, with the capacity to assemble from microbore through to -10 (DN16) 2SN hydraulic hose is suitable for maintenance, workshop, mobile or breakdown/standby use and is naturally built to the usual high standards you have come to expect from Banner.

The BS10B/VM is supplied as standard with a basic 3 sets of quick to fit die sets – 16, 20 and 23mm – allowing assembly of spiral hoses from -04 (DN6) to -10 (DN16). All dies come in a purpose built plastic toolbox with the machine. Extra Dies 6, 8, 10, 12, 14, 18 and 26mm for microbore and intermediate hose assembly are also available. You can have cluster quick change dies as well with this machine.

Machine setting and adjustment is simple. Select and fit the appropriate dies, set the micrometer machine gauge to the required finished diameter and operate the power pack. The machine will auto stop at the pre-set size set on gauge.

STANDARD/CLUSTER DIE SETS

Code	Swage Range	L(mm)
16	16-20	50
20	20-23	50
23	23-26	50

EXTRA DIE SETS

6	6-8	50
8	8-10	50
10	10-12	50
12	12-14	50
14	14-16	50
18	18-20	50
26	26-29	50

SPECIFICATIONS

Capacity	-10 (DN16) 2SN
Actuator	Single acting spring return 50 tonne ram
Pump	12v. 1ph and Air/Oil options
Standard dies	16, 20 and 23mm
Extra dies	6, 8, 10, 12, 14, 18 and 26mm
General	Maximum die length = 50mm Maximum swage diameter = 34mm Max opening over die = die + 20mm Die holder throat (open) = 55mm
Crated details	62 × 42 × 36cm(h) Gross weight 35kg

Air/Oil Power Pack
